MEDIA RELEASE

Allied Moulded Products, Inc. Releases Two Steel Fan Support Boxes

Steel Fan & Fixture Support Boxes with or without Bar Hanger for New Work Applications

BRYAN, Ohio, May 1, 2017 – Allied Moulded Products, Inc., manufacturer of nonmetallic outlet boxes for residential construction, is pleased to announce the release of its new steel fan support boxes; part numbers 9380-FR and 9380-FANB (with heavy-duty bar hanger). These new ceiling fan/fixture support boxes are rated for use in 16" and 24" on-center joist applications and meets both UL® deflection and 2011 National Electrical Code (Section 314.27) requirements.

The 9380 series fan and fixture support box features a 4" diameter steel outlet box with a volume of 17 cubic inches. Paddle fan bracket and fixture straps mount on a bolt-and-bracket system. This new product boasts higher ratings up to and including 70 lbs. fan support and 200 lbs. fixture support. The universal bar can be mounted in 16" or 24" on-center joist applications, with no reduction in rating. The bar also features positioning tabs for easy joist placement. A plaster cover is provided for retaining the mounting hardware and protecting the box during the finishing stages of construction.
