Allied Moulded Products, Inc. expands Inspection Window offering for Electrical Enclosures

Premium enclosure accessories manufactured by the experts of nonmetallic electrical enclosures

BRYAN, OH, August 29, 2016 – Allied Moulded Products, Inc., an industry leader in nonmetallic electrical boxes and enclosures, is expanding its line of premium enclosure accessories with two additional sizes of its Inspection Window.

Allied Moulded's new inspection window kits are designed to provide visibility and easy viewing access to equipment and components installed in an enclosure, while maintaining ratings up through NEMA Type 4X. The window kit features a strong and rigid design, securely mounting to the outside of most enclosure designs. The window kit is now available in three convenient sizes — 6" x 6", 9" x 5.5", and 13" x 8" — to allow for sufficient viewing space in any required application.

Allied Moulded continues to be a leading manufacturer of nonmetallic electrical enclosures and a "one-stop resource" where fiberglass and polycarbonate products can co-exist depending on the specific application characteristics and chemical compatibility requirements. For more information about Allied Moulded, visit www.alliedmoulded.com.

About Allied Moulded Products, Inc.

Allied Moulded Products, Inc., established in 1958, is a leader in the production of fiberglass reinforced polyester and polycarbonate, nonmetallic electrical boxes and enclosures, for use in residential and industrial applications globally. The Bryan, Ohio-based manufacturer is perfecting material and design formulations that result in products with increased strength, reduced weight, corrosion resistance, non-conductivity, UV resistance and ease of installation.
